To whom it may concern,

When we decided to have our basement finished, we had no idea where to start. Being first time homeowners we were hesitant because we didn't want to be taken advantage of. We knew what we wanted for our basement and to find the right person or people for the job we thought would be painstaking. We started looking through the phone book and found page after page of construction companies and renovation specialists. In the first two days we had called over a dozen home renovators. Some called back, some didn't. We noticed that some companies had web sites with pictures from start to finish. We couldn't imagine what our basement could look like. When we called AG Group it was a pleasant surprise to actually talk to someone instead of leaving a detailed message.

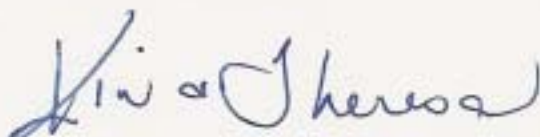

That was a good first impression. Rick was willing to drop by and take a look at our empty space and send us a quote within the next week. Rick provided the quote within 24 hours. We were very impressed with his honesty and more impressed with his professionalism. We decided to hire Rick right from the moment we had met him. They say you should trust your instinct and how correct that is. We watched our cold, dark cement basement transform with each passing day. Rick involved us with every detail and he changed things to fit our needs. Rick would provide a detailed list of time and material costs so we always knew where we stood, no hidden costs and no extra charges. We now have a place where we can relax after a hard day's work and be proud to show off.

We can't thank Rick enough for all of his hard work and for turning our dream into a reality.

We would highly recommend AG Group for any home renovation from a small room to a basement, whatever your dream is, Rick is your man.

Thanks for all you do,

Kim & Theresa
